Policy Title: Catering Policy

Originator: Finance and Administration Division

Reason for Policy/Purpose:

This policy establishes the catering definitions, restrictions, and requirements for the University of West Florida main campus.

Who Does this Govern and Who Needs to Know this Policy?

The employees and students of the University of West Florida.

Definition of Terms:

Catering is defined as the provision of food service by a commercial operation, which includes the activities of set-up, serving, and removal of food service. Catering is defined by the services performed, not by the type(s) of food provided. Catering does not include food prepared by individuals and brought from home for office parties, birthdays, and similar functions. Catering does not include “to go” orders that are picked up from local businesses. The University’s Dining Services Contractor is available to provide catering services; however, other catering vendors may be used according to the following limitations and guidelines.

Restrictions and Requirements:

Any business or individual providing catering service (a “Caterer”) on the UWF main campus must have a current State of Florida Public Food Service License and a current Escambia County Occupational License to provide catering services.

Caterers must provide certificate(s) of insurance evidencing the following insurance coverage.
