Board of Trustees Calendar

Click here to open in new tab.

Month View

By default, the calendar will display in the month view. Events will be displayed on the days that they are scheduled. You may navigate between the months using the arrow buttons in the upper left corner. You may also toggle back to the current month by clicking the "Today" button. The current day will be highlighted in yellow.

Week View

Toggling to the Week view will give you the option to view all events in a given week. This view is useful because it will also clearly display the time that the event is blocked off, making it easier to schedule around a specific timeslot.
Agenda View

To view all future events on the calendar, toggle to the Agenda view.
