ArgoAir Setup Instructions: Windows 10

Overview

Follow the instructions below to connect your Windows 10 device to ArgoAir.

Instructions

Step 1
Click on the network icon in the system tray.

Step 2
Select uwf-argo-air from the list, ensure Connect automatically is checked, and click Connect.

Step 3
Enter your UWF username and password in the fields and click OK.
Step 4

Click Connect and you should now be connected.

Forgetting the Network on Windows 10

If you need to forget the network to re-connect please see the following guide:

Clearing your ArgoAir wireless credentials
