Viewing transfer course equivalencies via MyUWF

Overview

This process explains how to use the Transfer Course Checker app in MyUWF to see how coursework will transfer to UWF from another institution. The Transfer Course Checker App is intended to allow prospective students to see how their coursework would transfer over to UWF.

Instructions

Step 1

Go to MyUWF. Search for "Transfer Course Checker" and click on the app.

Step 2

Once the app has loaded, you will be given the opportunity to search for an institution. An institution must be chosen prior to showing courses.

To search, start typing in the search box. As you type, the institution list will start populating with matches.

Step 3

Click on an institution from the list. This will show the list of courses that have a UWF equivalent.
1. Click this link to perform a different institutional search
2. This is the name and FICE code of the institution you are viewing course equivalencies for
3. If for some reason you expect to see a course listed that is not, this message provides a way to get in contact with someone who can assist
4. This is a way to filter the course listing. There could be a large number of courses that have equivalencies, so this will make it easier to find the specific course you are looking for. As with the institution search, each keystroke will automatically start to filter the course list. To clear the filter, simply clear out the text in the filter text box.
5. The radio buttons determine what to filter by. In this example, the transfer courses will be filtered by the text entered into the filter box.
6. This is the table of courses that have equivalencies
7. Some of the UWF courses may have an **And** or an **Or** in the name. This means that there are multiple courses that are considered an equivalent to the transfer course
8. Help icon. When clicked, a popup will show to explain some information regarding the UWF equivalencies.
