Pearson MyLab and Mastering

> ⓘ **Warning**
>
> You cannot pair your Canvas course with a Pearson MyLab course you already have in your Pearson account. You can only create a new course or make a COPY of an existing MyLab course through Canvas. Review the Get started with MyLab and Mastering for your LMS guide for more details.

Pearson MyLab now integrates with the Respondus Monitor proctoring system. Here are the details:

- **Works seamlessly with your Respondus Monitor license:** There are no hoops to jump through, no wires to twist together. Instructors simply link their LMS course to a MyLab course and the magic occurs from there.
- **New reporting:** Usage reports have been updated so admins can see Respondus Monitor use across each LMS course and publishing system.
- **Easy set-up for Instructors**: Instructors perform a one-time, two-step process for linking their MyLab course to Respondus Monitor.
- **Overview video & resources:** learn how to use Pearson MyLab with Respondus Monitor at Respondus.com/MyLab.

If you have questions, don't hesitate to reach out to your account manager or the Respondus Training Team (training@respondus.com)

Pearson's MyLab & Mastering for Canvas delivers a robust course experience for you and your students. This page covers how to integrate Pearson MyLab with your eLearning course.

Features

- Seamless, single sign-on access from your Canvas course to MyLab & Mastering including assignments, study plan, eText, and results
- Direct links to MyLab & Mastering from anywhere within your Canvas course
- Grade transfer from MyLab & Mastering into the Canvas gradebook
- Grade synchronization will be available for Fall 2014 classes!

MyLab & Mastering, Pearson's leading online learning products, are now seamlessly integrated with Canvas, a leading learning management system. This integration delivers streamlined access to your customizable content and highly personalized study paths, responsive learning tools, and real-time evaluation and diagnostics within the context of Canvas. Instructors and students can link their Canvas and Pearson accounts to enable single sign-on to MyLab & Mastering from within their Canvas course. Students can now spend more time learning and less time managing their course access. Effective and engaging courses provide instructional materials when and where students need them. Instructors can create direct links to MyLab & Mastering from anywhere within their Canvas course. Flexible grade transfer capabilities allow the instructor to control exactly which MyLab & Mastering grades should be transferred to the Canvas Gradebook.

> ⓘ **Pearson now offers Direct Integration**
>
> Pearson offers Direct Integration between Canvas and its MyLab/Mastering products. Direct Integration allows instructors and students to log into Canvas and click a link to access their Pearson resources without the need for the user to create a new account, create a course, or log in a second time.
>
> **Instructors work with their Pearson representatives to design the course experience that meets their specific teaching and learning objectives.**
>
> Pearson Direct Integration provides:
> Single Sign-On (SSO) from Canvas directly into an instructor's MyLab/Mastering course resources. This standards-based integration uses IMS Learning Tools Interoperability (LTI), a proven integration protocol.
> Custom course development by Pearson Digital Integration Services with input from the instructor and utilizing instructional design best practices.
> Direct links to MyLab/Mastering resources ensure the student is presented with the educational materials they need from their Canvas course.
> Automated Grade Sync between the Pearson MyLab/Mastering course gradebooks and the Canvas Gradebook.
> Canvas Assignments deep linking from Instructor Self-Service, allowing the instructor to link to their Pearson quizzes, tests, and homework from their Modules area.

Getting Started

Contact your Pearson representative to find out if your specific MyLab or Mastering course is available, and to request a Pearson account if you need one. Find your Pearson Rep.
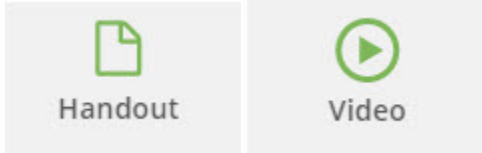

Visit Pearson's LMS Integration Services website and select Canvas. Choose your MyLab or Mastering product. On the next page, scroll down and you'll see an instructor's Training Guide and link to How-To Videos. You'll also see links to student registration PDF, Word doc and video. These resources are different because the MyLab platform is different from the Mastering platform. And some of the MyLabs are different from others.

Get Trained

- Read the Canvas Integration Guide for MyLab or Instructor Quick Guide for Modified Mastering with Canvas for walkthroughs of sign-in, course setup and linking your accounts, adding component links, using Course Tools, the student experience, and how to transfer grades.
- Watch Pearson tutorial videos.

Get Your Students Started

Get your students up and running quickly with a brief Get Started lesson on the first day of class. The following materials were prepared for your convenience. Click on each image to access the resource.

You may also want to link to the Get Started Student Help Website.

For those who do not link to Canvas

Visit any MyLab page (www.mymathlab.com, www.myaccountinglab.com, www.myITlab.com , www.myeconlab.com, etc) and click on Training and Support from the Educator section on the lower left to see Training documentation and How-To Videos.
