

Convert narrated PowerPoint 2013 (WIN) to Video

Record your Narration

- Open your slides in Microsoft **PowerPoint 2013** (Windows only).
- Go to the **SlideShow** tab.
- Click **Record Slide Show**.
- **Tip 1:** Try not to speak while transitioning between slides, it may cut you off.
- **Tip 2:** Use PowerPoint's **Laser Pointer** to focus on key points.
- Once you've finished recording your narration, press **Esc** to exit the recording process.
- **Save** your presentation to a safe place on your computer.
- **Listen** to the presentation to be sure it meets your expectations.

Export Presentation as Video (MP4)

- Once the presentation is finished, click the **File** menu in PowerPoint.
- Select **Export**, and then **Create Video**.
- Leave these default settings:
 - **Computer & HD Displays**
 - **Use Recorded Timings and Narration**
- Click the **Create Video** button.
- Watch the **Creating Video progress bar** at the bottom of the PowerPoint window to know when the video is done.
