All exams are scheduled based on the standard time blocks of each semester. The [Final Exam Schedule](#) gives reference to the standard time blocks.

If a class in question does not meet during the specified standard time block then it is up to the instructor to schedule that exam. Keep in mind the final would be scheduled based off of availability of a classroom at a standard exam time. The instructor can schedule their requested exam time through the department or through submission of a Classroom Request within JIRA.
